

12th International Conference on MOLECULAR ELECTRONICS & BIOELECTRONICS

Kobe International Conference Center, Japan

June 15-17, 2026

Call for Papers

The Division of Molecular Electronics and Bioelectronics (M&BE) of the Japan Society of Applied Physics is pleased to announce the 12th International Conference on Molecular Electronics and Bioelectronics (M&BE12), to be held in Kobe, Japan, from June 15 to 17, 2026.

Since 2001, the M&BE Conference has been held biennially and has grown into one of the most respected and well-established international conferences in this interdisciplinary field. With approximately 300 participants at each meeting, M&BE fosters dynamic discussions across physics, chemistry, materials science, device engineering, and biotechnology.

M&BE12 will bring together leading scientists and young researchers to share the latest advances in organic materials, molecular systems, bio-related materials, and next-generation electronic and photonic devices.

We warmly welcome submissions for both oral and poster presentations.

Chair / Co-Chair Takaaki Manaka (Science Tokyo) / Shinya Kumagai (Meijo Univ.)

Topics

- A: Fabrication and Characterization
- B: Functional Materials
- C: Organic Devices
- D: Biotechnology and Medical Applications
- E: Organic Photovoltaics and Energy Harvesting
- F: Perovskite and Hybrid Materials

Important Dates

- Submission Deadline: **March 30 (Mon), 2026**
- Early Registration Deadline: **May 13 (Wed), 2026**
- Conference Dates: **June 15–17, 2026**
- Special Issue Submission: **June 21– July 31, 2026**

Plenary Speakers

Prof. Tsutomu Miyasaka
Toin University of Yokohama
Japan

Prof. Cheolmin Park
Yonsei University
South Korea

Prof. Michael J. Schöning
Aachen University of Applied Sciences
Germany
